PLANTS IN THE QUR'AN

Reading Comprehensions

Pomegranate: A sign from Allah
Pomegranate is not only from the fruits in Paradise but Allah asks us to reflect on its fruits here on earth as it is one of His signs!

زَمَان
In them (both) will be fruits, and date- palms and pomegranates. (68) Then which of the Blessings of your Lord will you both (jinn and men) deny?
Surah Rahman 55:68-69

Did you know that Allah instructs us to look at the pomegranate fruit? In surah Al-Anaam ayah 6 He says: gardens of grapes, olives and pomegranates, each similar (in kind) yet different (in variety and taste). Look at their fruits when they begin to bear, and the ripeness thereof. Verily! In these things there are signs for people who believe.

They are also mentioned in Surah Rahman as part of the description of Jannah. May we all taste the fruit in Paradise, aameen!

Pomegranates are grown on trees or shrubs between 5m to 10m high. They have beautiful bright red flowers about 3cm wide and some trees are grown for the flowers alone. They are also very long-living with some varieties in France surviving for 200 years!

The reason that pomegranate trees are grown is because they are labelled a health 'superfood.' They are good source of fibre and contain vitamins A, C and E and iron. In many traditional medicines pomegranates are used to help digestion of food. More recently, scientists found that a glass of pomegranate juice a day helped people suffering from high cholesterol and slowed the spread of some cancers.

Pomegranates are truly a beautiful beneficial sign from Allah!

and tall date-palms, with hanging clusters
Surah Qaf 50:10
Therein are fruits, date-palms producing sheathed stalks (enclosing dates)
Surah Ar-Rahman 55:11

Pomegranates are actually classified as a berry! This is because their seeds and pulp are produced from the ovary of a single flower. Their seeds can be enjoyed like other berries, sprinkled on top of yoghurt or eaten as part of a fruit salad. They are also a popular juice flavour. This juice is cooked down to make pomegranate molasses syrup which is used in lots of Middle Eastern dishes.

Some people especially love to eat pomegranates because they are labelled a health 'superfood.' They are good source of fibre and contain vitamins A, C and E and iron. In many traditional medicines pomegranates are used to help digestion of food. More recently, scientists found that a glass of pomegranate juice a day helped people suffering from high cholesterol and slowed the spread of some cancers.

Pomegranates are truly a beautiful beneficial sign from Allah!

Do you want your kids to learn reading comprehension skills

but...

existing resources don't align with your values

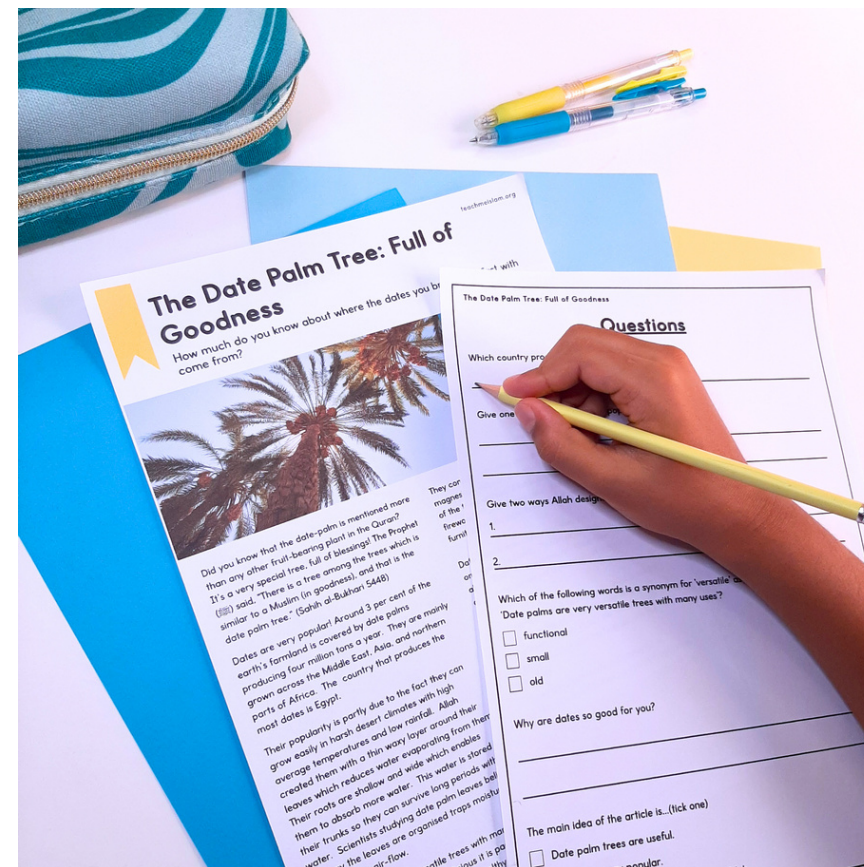

you don't have time to make your own

you want it to be fun, not a chore!

That's why I created:

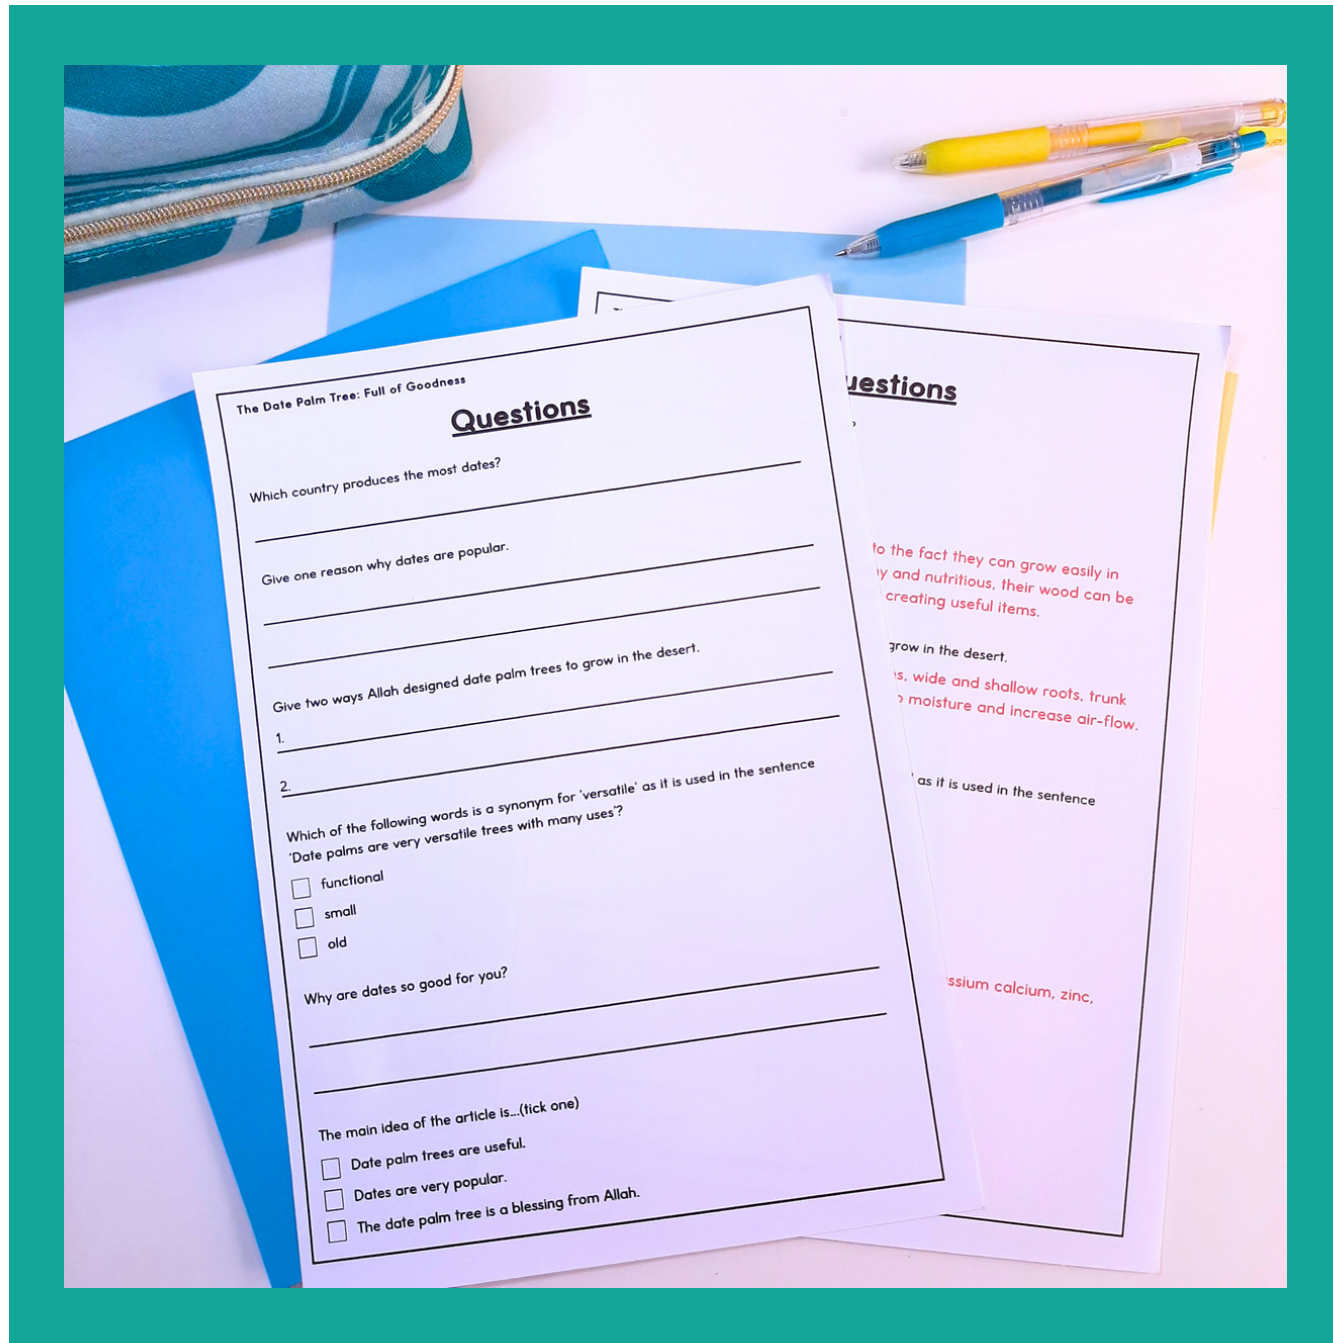

Qur'anic Plants Reading Comprehensions

Learn about fascinating plants and develop reading skills.

What do you get?

Engaging activities - ready to go!

5 articles about plants featured in the Qur'an

Question sheets about each passage

Full colour and printer-friendly versions

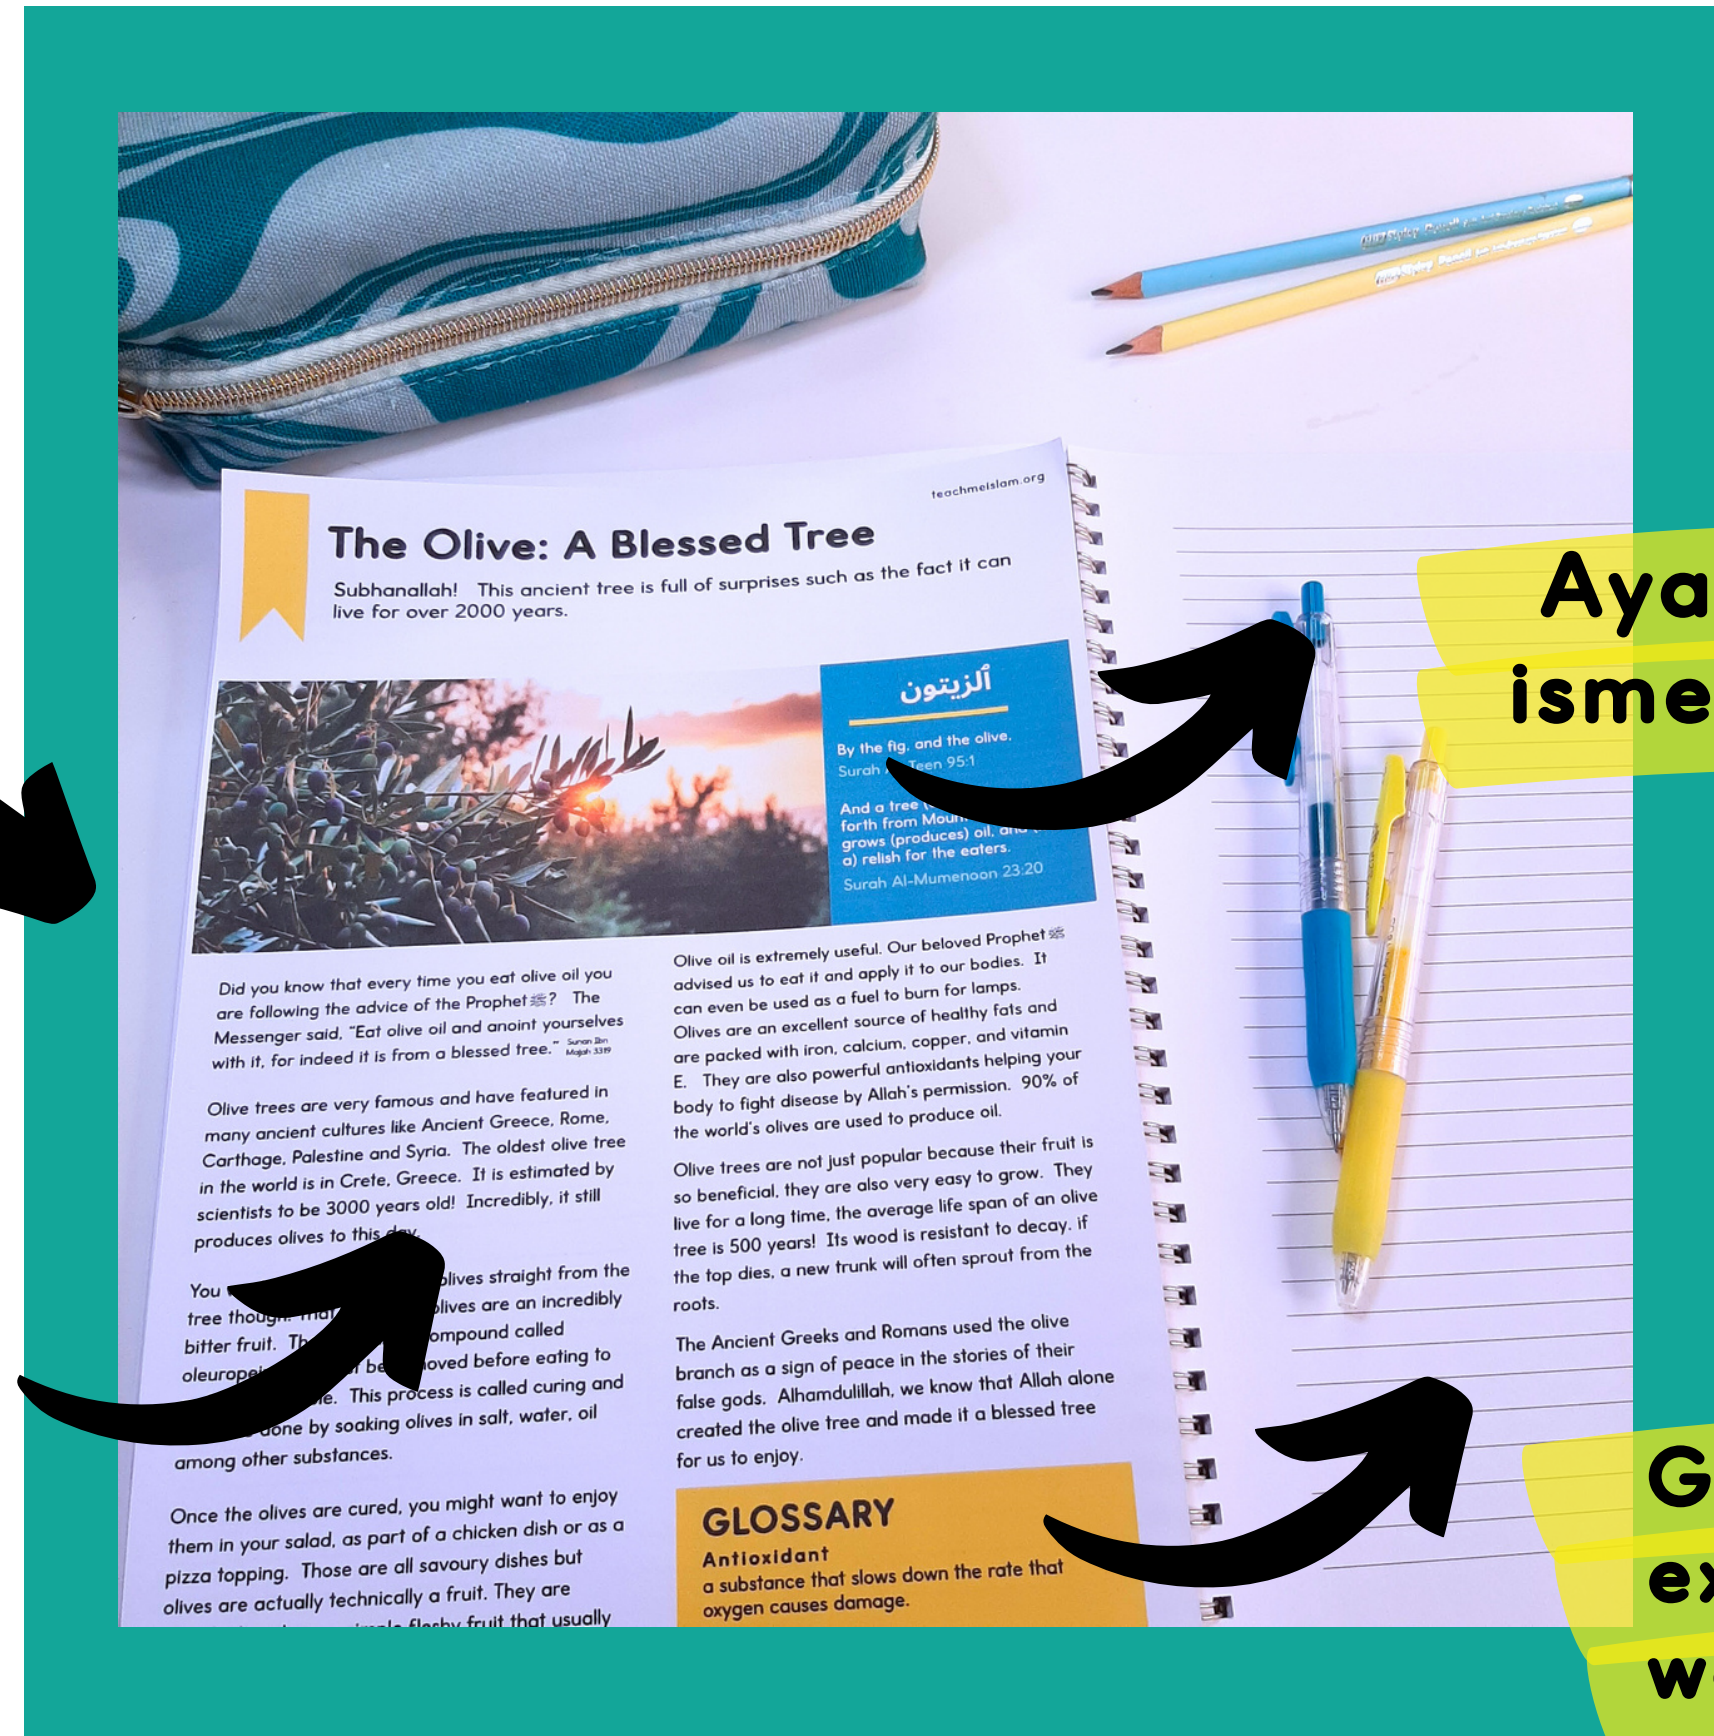

Answer Keys

Take a closer look!

Beautiful photos to engage and interest kids

Informative reading passage that links Allah's creation with their creator

Ayat the plant is mentioned in

Glossary to explain unfamiliar words

Use this resource in so many ways!

Islamic Studies

Teach about different ayats and Allah's signs.

Independent Work

Set as independent work while homeschooling.

English

Develop reading skills, improve vocabulary and learn about non-fiction texts.

Read Aloud

Use the passages in read-alouds or as part of a animals unit study.
